

YSP - 5 Type

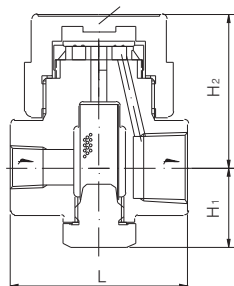

STEAM TRAP

This disc type steam trap has perfect operation and its entire parts are made of stainless steel of high durability.

Embedded bimetal unit eliminates air troubles and rupture.

CONSTRUCTIONS

FEATURES

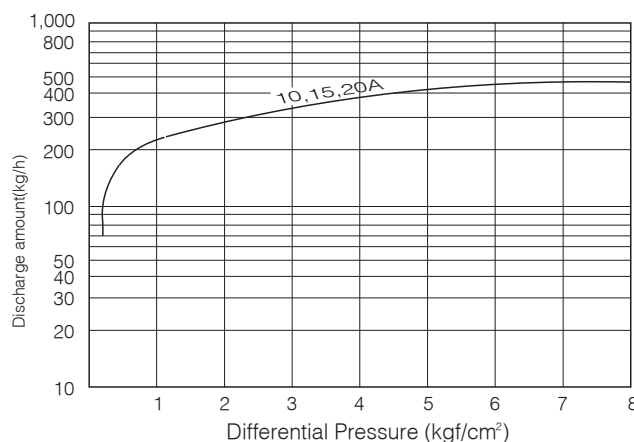

- Anti-air trouble bi-metal is mounted.
- Embedded strainer prevents mis-operation caused by foreign materials.
- Made of stainless steel, this product ensures high strength and lasting durability.

SPECIFICATION

Items	YSP-5
Applicable pressure	0.1~8, 0.3~16kgf/cm ² g
Applicable temperature	Max. 220°C
End connection	KS PT SCREW
Materials	Body : Stainless steel Disc / seat : Stainless steel
Valve body pressure test	1.5 times of applicable pressure

DIMENSIONS

Models	Size	L	H1	H2	Weight(kg)
YSP-5 Type	15 (1/2")	65	30	55	1.0
	20 (3/4")	65	30	55	1.0
	25 (1")	65	30	55	1.2

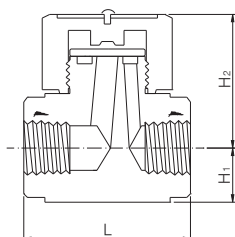

YSP - 6 Type

STEAM TRAP

CONSTRUCTIONS

FEATURES

- Small size, light weight & easy installation.
- Superior discharge capacity brings long-lasting durability.
- Made of stainless steel, this product has high gravity and is strong against corrosion.

SPECIFICATION

Items	YSP-6
Applicable pressure	0.1~16kgf/cm ² g
Applicable temperature	MAX. 220
End connection	KS PT SCREW
Materials	Body : Stainless steel Disc / seat: Stainless steel
Valve body pressure test	Hydraulic 24kgf/cm ² g

DIMENSIONS

Size	L	H1	H2	Weight(kg)
6 (1/4")	40	13	32	0.23
9 (3/8")	40	13	32	0.23
